Examiner Interview

A telephone interview took place between Examiner Syed Zia and Emmanuel Rivera on December 16, 2005. Examiner Zia proposed that the claims may be amended to recite a server computer, methods performed at a server computer, and computer media executed at a server computer. A server computer is not taught by the cited reference U.S. Patent No. 6,522,767 B1 to Moskowitz et al (Moskowitz). Claims 1-49 are rejected under 35 USC §102(e) as being anticipated by Moskowitz. Claims 1-49 as presented in the claim listing of this response have either been amended to recite a server computer, or depend on a base claim that recites a server computer.
